NORWALK, Conn., March 24, 2022 - FactSet ("FactSet" or the "Company") (NYSE:FDS) (NASDAQ:FDS), a global provider of integrated financial information, analytical applications, and industry-leading service, today announced results for its second quarter ended February 28, 2022.

### Second Quarter Fiscal 2022 Highlights

- **Revenues** increased 10.0%, or \$39.3 million, to \$431.1 million for the second quarter of fiscal 2022 compared with \$391.8 million for the same period in fiscal 2021. The increase was primarily due to higher sales of research and advisory and analytics solutions. Organic revenue, which excludes the effects of acquisitions and dispositions completed within the last 12 months and foreign currency movements, grew 9.9% to \$430.8 million during the second quarter of fiscal 2022 from the prior year period.
- **Annual Subscription Value (ASV)** plus professional services was \$1.8 billion at February 28, 2022, compared with \$1.6 billion at February 28, 2021. Organic ASV plus professional services, which excludes the effects of acquisitions and dispositions completed within the last 12 months and foreign currency movements, was \$1.7 billion at February 28, 2022, up \$146.3 million from the prior year at a growth rate of 9.4%.
- **Organic ASV** plus professional services increased \$44.8 million over the last three months. The primary contributors to this growth were higher sales of research and advisory and analytics solutions. Please see the "ASV + Professional Services" section of this press release for details.
- **Operating margin** decreased to 28.6% compared with 29.6% for the same period last year, driven by charges related to vacating certain leased office space and costs related to the CUSIP Global Services (CGS) acquisition, partially offset by growth in revenues, lower compensation costs and computer depreciation. Adjusted operating margin improved to 33.7% compared with 32.6% in the prior year period, primarily due to lower compensation expenses and decreased data costs
- **Diluted earnings per share (EPS)** increased 13.6% to \$2.84 compared with \$2.50 for the same period in fiscal 2021. Adjusted diluted EPS increased 20.2% to \$3.27 compared with the prior year period, primarily due to higher revenues, margin expansion and a decreased tax rate.
- **EBITDA** increased to \$146.8 million, up 11.1% for the second quarter of fiscal 2022, compared with \$132.2 million for the same period in fiscal 2021. FactSet is providing this metric to allow additional transparency for its equity and debt investors.
- The Company's **effective tax rate** for the second quarter decreased to 9.9% compared with 15.7% a year ago, primarily due to lower projected levels of income before income taxes and a tax provision reduction related to the lower rate compared with the three months ended February 28, 2021.
- FactSet completed its acquisition of CGS, a standard in the global securities marketplace, on March 1, 2022. Related to the acquisition, on March 1, 2022, FactSet issued its inaugural investment grade senior notes consisting of \$500 million principal amount of 2.90% senior notes due 2027 and \$500 million principal amount of 3.45% senior notes due 2032. In addition, on March 1, 2022, FactSet entered into a new credit agreement providing for term and revolving credit facilities.
